Orthopedic Manual  
Therapist  
Horst (Netherlands)

## INTRODUCTION

Pain is a common complaint that can significantly affect the quality of life. Pain control can be achieved using pharmacological and non-pharmacological treatment. A new innovative method of non-pharmacological pain treatment is static multipolar medical magnets. In this seminar you will receive an explanation about the background and the application of this magnet therapy for pain control.

**SUNDAY  
1 DECEMBER 2024**

**VAN DER VALK HOTEL ARNHEM  
AMSTERDAMSEWEG 505 | ARNHEM**

AANMELDEN

## OUR PROGRAM

**01**

**09:30 - 10:00**  
welcome and coffee/tea

**02**

**10:00 - 11:30**  
Multipolar magnetic therapy: technical  
and physiological background - James  
Hermans (in English)

**03**

**11:30 - 12:30**  
Indication and clinical application of  
multipolar magnet for pain management -  
Mayon Roeffen (in Dutch)

**12:30 - 14:00**  
Lunch | Warme lunchbuffet in het restaurant

**04**

**14:00 - 14:30**  
Personal experience with multipolar  
magnet - Djien Liem (in Dutch)

**14:30 - 15:00**  
Coffee/tea break

**05**

**15:00 - 16:00**  
Practical exercise with multipolar magnet  
- James Hermans/Mayon Roeffen
